What is value?

Our Agenda

- Introductions
- What is the problem?
- How does Applied Frameworks define value?
- How to quantify value?
- How is all this connected to rugby?

The background is a solid blue color with a complex, repeating geometric pattern of interconnected lines forming various polygons, creating a crystalline or network-like appearance. The text is centered horizontally and vertically in a bold, white, sans-serif font.

What is the problem?

Quick Poll - Defining Value

Which of the following definitions of value resonates the most with you and your team?

1. “Anything of worth the customer will pay for.”
2. “The economic worth of the capability to the business and the customer.”
3. “Total savings or satisfaction that the customer receives from the solution.”
4. “All forms of worth which determine the health and well-being of the enterprise in the long term.”

Why These Definitions Do Not Tell the Whole Story

They are a bit naive

Do not link to profit

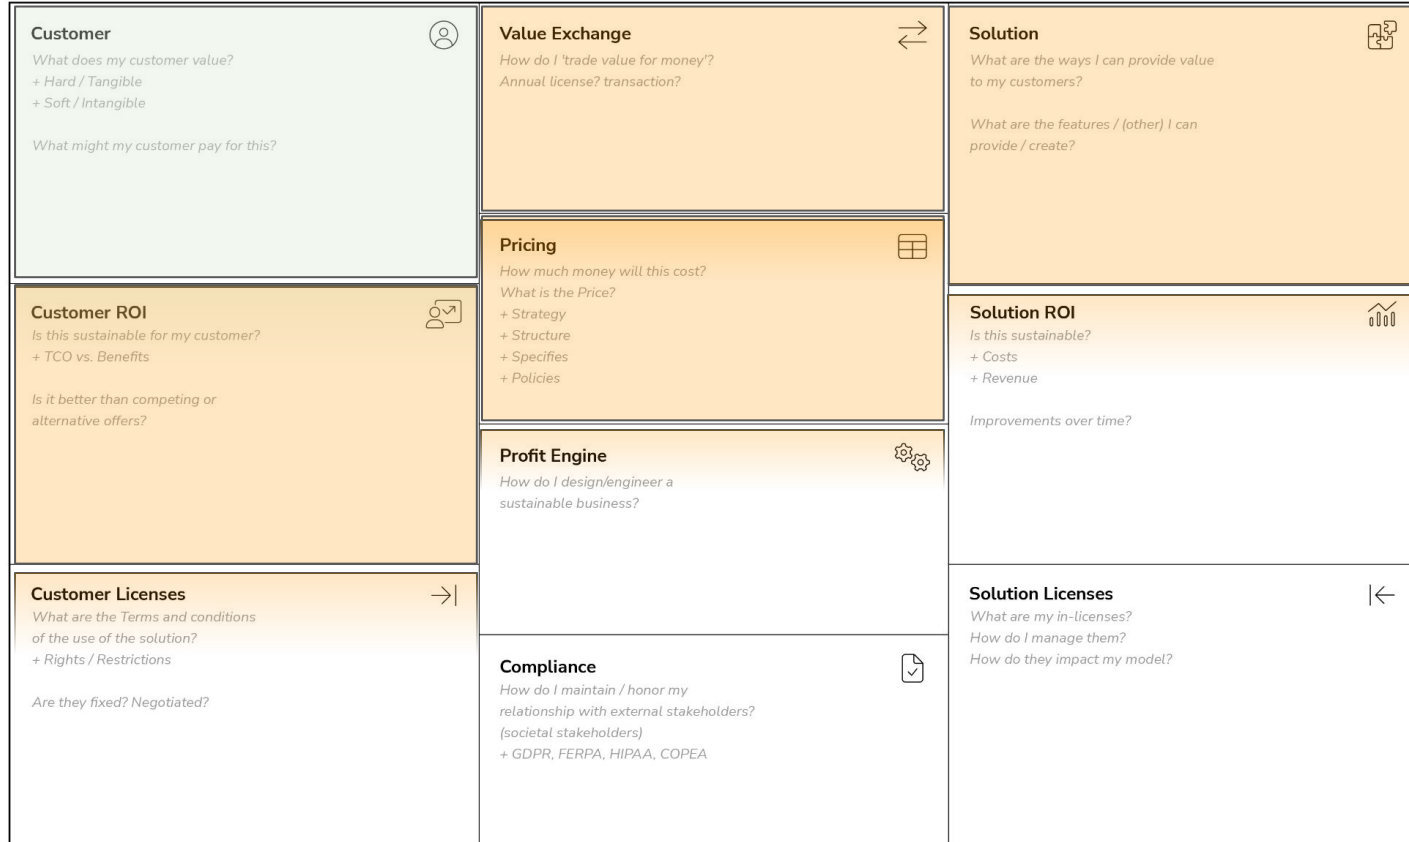

Our Definition

value (n): *benefits a customer receives, less the price the firm extracts*

Value >> Price
(\$, €)

Applied Framework Profit Streams™ Canvas

Dissecting Value - Part I

First-order effects

- Tangible economic benefits
- #1 consideration for B2B, B2P and some B2C purchases

Example: B2B purchase of electric cars

- Reduce fuel consumption costs
- Government tax credits & rebates

Dissecting Value - Part II

Second-order effects

- Brand and other intangible psychological benefits
- #1 consideration for many B2C purchases

Example: B2C purchase of Gucci shoes

- Associate with a luxury brand
- “Cool” factor

Most Value is Hidden

The challenge is to make visible what lies beneath.

Eight Ways to Provide Value - Part I

More is better...

1. Increase revenue
2. Increase operating capital
3. Increase satisfaction
4. Improve optionality

Eight Ways to Provide Value - Part II

Less is more...

5. Reduce costs
6. Reduce capital investment
7. Reduce risk
8. Save time

What more do you want to know?

How to Quantify Value

Value Algorithms

Value Algorithms

What is the economic impact of a Lean Portfolio Management course with Applied Frameworks?

$$\begin{array}{l} \text{Economic Impact} = \text{Savings Realized} + \text{Revenue Increased} + \text{Costs Avoided} - \left[\text{Costs to Implement} \right] \\ \text{positive differential value} \qquad \qquad \qquad \text{negative differential value} \\ \text{Customer ROI} + \text{Solution} \end{array}$$

Value Quantification Framework

Who <i>What segment is receiving the value?</i>			
Summary <i>What value does the solution provide the customer?</i>			
Magnitude <i>What is the economic impact of the value? How can this potential value be measured?</i> <i>How can the economic impact be expressed as a formula?</i>			
Implementation <i>What changes does the customer need to make in order to realize the value?</i>	<input type="checkbox"/> Easy	<input type="checkbox"/> Medium	<input type="checkbox"/> Hard
Revenue, Cost or Risk	<input type="checkbox"/> Increase Revenue	<input type="checkbox"/> Decrease Cost	<input type="checkbox"/> Avoid Risk

What questions can I answer for you now?

Application to Rugby

PitcheroGPS

Rugby is a Fun, but Hard Game

Soft Tissue Injuries

Torn Achilles tendon,
six months for recovery

Concussions

Right elbow to the temple,
sidelined for four weeks

The Impact of Injury

1. Sidelined from competition

- On average, injuries result in a loss of **thirty-eight days** in a 288-day season¹.
- On average, **fifty-nine players** per professional rugby club per season will be injured.

2. Early onset dementia and other irreversible neurological conditions

- In 2022, 100 former rugby players initiated a lawsuit to hold rugby governing bodies responsible for failing to protect players from permanent brain damage².
- To date, the NFL has paid out **~\$1 billion** in claims related repeated head injuries³

The Solution

Wearable GPS unit which records training duration & intensity, movements on the pitch, collisions and accelerations.

Potential Benefits

1. Reduce player injury
2. Establish player benchmarks
3. Support player development & growth
4. Tailored training sessions
5. Visualize field position

Pitchero

Who is the Customer?

Who <i>What segment is receiving the value?</i>	Owner of a rugby team		
Summary <i>What value does the solution provide the customer?</i>			
Magnitude <i>What is the economic impact of the value? How can this potential value be measured?</i> <i>How can the economic impact be expressed as a formula?</i>			
Implementation <i>What changes does the customer need to make in order to realize the value?</i>	<input type="checkbox"/> Easy	<input type="checkbox"/> Medium	<input type="checkbox"/> Hard
Revenue, Cost or Risk	<input type="checkbox"/> Increase Revenue	<input type="checkbox"/> Decrease Cost	<input type="checkbox"/> Avoid Risk

What Value Do They Receive?

Who <i>What segment is receiving the value?</i>	Owner of a rugby team		
Summary <i>What value does the solution provide the customer?</i>	Reduce player injury		
Magnitude <i>What is the economic impact of the value? How can this potential value be measured?</i> <i>How can the economic impact be expressed as a formula?</i>			
Implementation <i>What changes does the customer need to make in order to realize the value?</i>			
	<input type="checkbox"/> Easy	<input type="checkbox"/> Medium	<input type="checkbox"/> Hard
Revenue, Cost or Risk	<input type="checkbox"/> Increase Revenue	<input type="checkbox"/> Decrease Cost	<input type="checkbox"/> Avoid Risk

What is the Potential Economic Impact?

Who <i>What segment is receiving the value?</i>	Owner of a rugby team		
Summary <i>What value does the solution provide the customer?</i>	Reduce player injury		
Magnitude <i>What is the economic impact of the value? How can this potential value be measured?</i> <i>How can the economic impact be expressed as a formula?</i>			
Implementation <i>What changes does the customer need to make in order to realize the value?</i>	-----		
	<input type="checkbox"/> Easy	<input type="checkbox"/> Medium	<input type="checkbox"/> Hard
Revenue, Cost or Risk	<input type="checkbox"/> Increase Revenue	<input type="checkbox"/> Decrease Cost	<input type="checkbox"/> Avoid Risk

Calculating Economic Impact

Reduce player injury

- **Total salary:** \$8.8 million USD
- **Roster:** Sixty-eight players
- **Average salary:** \$129,000 USD
- **Length of season:** 288 days

Economic Impact
(total injury days)

$$= \frac{59}{68} * 68 * 38$$

↑ % players injured **↑** # of players **↑** # days injured

Harlequins

2,242 injury days

That is the equivalent of 7.78 players

\$1,003,620 USD

How Does the Customer Realize this Value?

Who <i>What segment is receiving the value?</i>	Owner of a rugby team		
Summary <i>What value does the solution provide the customer?</i>	Reduce player injury		
Magnitude <i>What is the economic impact of the value? How can this potential value be measured?</i> <i>How can the economic impact be expressed as a formula?</i>	~\$1,000,000 USD Total injury days per squad		
	----- % injured * # players * days injured		
Implementation <i>What changes does the customer need to make in order to realize the value?</i>	Wearable technology		
	<input checked="" type="checkbox"/> Easy	<input type="checkbox"/> Medium	<input type="checkbox"/> Hard
Revenue, Cost or Risk	<input type="checkbox"/> Increase Revenue	<input type="checkbox"/> Decrease Cost	<input type="checkbox"/> Avoid Risk

What Category of Value is Offered?

Who <i>What segment is receiving the value?</i>	Owner of a rugby team		
Summary <i>What value does the solution provide the customer?</i>	Reduce player injury		
Magnitude <i>What is the economic impact of the value? How can this potential value be measured?</i> <i>How can the economic impact be expressed as a formula?</i>	~\$1,000,000 USD Total injury days per squad		
	----- % injured * # players * days injured		
Implementation <i>What changes does the customer need to make in order to realize the value?</i>	Wearable technology		
	<input checked="" type="checkbox"/> Easy	<input type="checkbox"/> Medium	<input type="checkbox"/> Hard
Revenue, Cost or Risk	<input type="checkbox"/> Increase Revenue	<input type="checkbox"/> Decrease Cost	<input checked="" type="checkbox"/> Avoid Risk
